Subject: Re: Bloom Boxes at Equinix in Elmsford NY state

To the folks at PANYNJ

NYSERDA gives daily performance for 13 Bloom boxes at 13 different Home Depot stores. These are 27 months old and really suck. They Blow 934 pounds of CO2 per megawatt hour into the Beautiful air above the Empire State.

Home Depot lies about being green. Fordham University lies about being green, Equinix lies about being green and PANYNJ lies about being green.

Bloom is the Theranos of Thermodynamics. Al Gore is Gangrene and the Wheeler EPA is corrupt. Young Michael Regan better have a lot of Lysol and Clorox. I am going to get some fine lawyers to sue the EPA for being in bed with Doerr and the Bloomdogglers.

I have waited just for this moment when a REAL SCIENTIST like honest MIKE is in charge of the EPA.

As they say in the classics, the excrement is about to impinge upon the air movement device.

Happy New Year

There is one Bloom Coffin at Fordham University in the Bronx NY. It has a nameplate of 262.5 kilowatts. It is 9 months old. It also sucks.

The President of Fordham is copied. He knows all about the Bronx Bloomdoggie scam. I am sure he is happy that the Biden EPA will stop Global Warming.

GREEN LIES MATTER TO THE ANIMALS AT THE BRONX ZOO

Three months ago, Bloom installed 862.5 kilowatts of fuel cells at Equinix in Elmsford.

The performance of these fuel cells shows Bloom has greenwashed. Their power at Equinix is dirty and unreliable. Maybe Patrick McCormick who is now paid by Taxpayers can comment? I have high expectations that Michael Regan and the Biden EPA will fine Bloom in the hundreds of millions of dollars. Time will tell if the crooks at Bloom own Joe Biden or not. They sure own Congressman Huffman and Senator Feinstein who were architects of the Bloomdoggie.

I look forward to all the FOIL records from the Port Authority. Maybe that will help my Qui Tam cases to bring back the rule of law and equal justice.

Happy New Year
